HAMID KHAN

Technology Transformation & AI Leader | Service & Operational Excellence | M&A Integration

Minneapolis, MN | (858) 228-0931 | hamid.khan4153@gmail.com | linkedin.com/in/hamid-m-khan-b2042654 | hamidmkahn.github.io

SUMMARY

Technology leader with 20+ years in financial services and retail, including 14 years managing teams of direct reports. At FICO, led a global organization of 65+ employees and contractors in four countries, including the service desk and client-facing support channels for FICO's SaaS platforms. Put AI and intelligent automation into production with governance in place from the start. Earlier ran e-commerce, order management, point-of-sale and fulfillment systems for a retailer with 500+ stores, and worked on merger and acquisition integration at both companies. Worked with C-suite, product and Customer Success leaders to set roadmaps, fund them and measure what they deliver. Two-time IBM Champion with a master's degree from Wichita State University.

SELECTED RESULTS

- Built a governance model for AI-driven change (LLM-as-a-judge review, architectural fitness functions, approval gates). The automation has caused zero incidents.
- Raised change success from 70% to 99%, cut production incidents by about 80% and brought repeat incidents down from 66% to 10%.
- Built AI-driven autonomous patching across mainframe, UNIX, Linux and Windows. Patch cycles went from days to hours with 100% compliance, and engineers got back 80 hours a month.
- Saved $1.5M a year through vendor consolidation and infrastructure changes, plus about $5M in cost avoidance from IBM's ZOPD program for ISVs.

CORE EXPERTISE

AI Strategy & Multi-Year Roadmaps · Generative AI, AI Agents & Intelligent Automation · Responsible AI Governance & Value Measurement · Service Desk & Customer Support Operations · SLA, CSAT & Ticket Analytics · E-commerce, Order Management & POS Systems · Workflow Orchestration (ServiceNow) · Analytics & Data Platforms · M&A Integration · Executive Partnership & Change Leadership · Budget, Vendor & Contract Management · Regulated Environments (SOX, PCI-DSS, NIST)

PROFESSIONAL EXPERIENCE

FICO San Diego, CA (Remote)

Senior Digital Transformation Leader, End-to-End Technology Operations May 2019 – Oct 2026

Led availability, support, security and modernization of FICO's SaaS decision intelligence platforms, used by external financial services clients around the world. Team of 10 direct reports, including managers, and 57+ contractors across 3 continents and 4 countries, covering the service desk, SRE, infrastructure, mainframe, storage and service management.

AI Strategy and Intelligent Automation

- Set up governance for AI-driven change before any of it went live: LLM-as-a-judge validation, architectural fitness functions and approval gates that every automated change has to pass. There have been zero automation-caused incidents.
- Built AI agents and MCP gateways/servers that connect ServiceNow, Splunk and Datadog to day-to-day operations, automating triage and remediation and shortening time to resolve.
- Designed and rolled out AI-driven autonomous patching. The system runs pre-checks, orders patches from live telemetry, verifies health afterward and rolls back on its own. Patch cycles dropped from days to hours at 100% compliance.
- Led ServiceNow platform strategy, including AI integration for service automation and workflow orchestration.

Customer Support and Client Experience

- Ran the service desk and client-facing support channels for FICO's SaaS platforms, managing to SLAs and tracking ticket volumes and CSAT.
- Worked closely with Customer Success on client-impacting incidents, escalations and service improvements, and delivered client-facing self-service and Customer Success tooling.

- Cut production incidents by about 80% through SRE practices and automation. Repeat incidents fell from 66% to 10% after the team moved to proactive monitoring and fixing problems at the source.
- Raised change success from 70% to 99% and rebuilt observability on Splunk, Datadog and AppDynamics, cutting detection time by 90%.

Strategy, Portfolio and Budget

- Advised product, architecture and C-suite leaders, turning operational risk and opportunity into roadmaps and investment decisions.
- Owned budget planning, vendor relationships, contracts and SOW oversight for enterprise tooling and third-party engineering services.
- Delivered $1.5M in savings each year, and got approval for IBM's ZOPD program for ISVs, avoiding about $5M in cost.
- Worked on technology integration for FICO mergers and acquisitions, including customer, billing and order systems.
- Worked on the analytics and data platform behind FICO Scores.

CHARLOTTE RUSSE INC. San Diego, CA
Senior Technology Leader Oct 2012 – Apr 2019

Led enterprise technology and a team of direct reports for a national retailer with 500+ stores.

- Ran the e-commerce, order management, point-of-sale and fulfillment systems behind the stores and the online business.
- Worked on technology integration for mergers and acquisitions, including customer, billing and order systems.
- Directed the data center migration and modernization end to end, from the physical move through the transition to Microsoft Azure. Delivered on schedule.
- Owned business continuity and DR for 500+ locations, and kept PCI and SOX compliance in place through audits and operational controls.
- Managed vendors and developed the engineers on the team.

KOHL'S DEPARTMENT STORES Menomonee Falls, WI
Senior Platform Managing Engineer May 2010 – Sep 2012

- Led the migration of 70+ critical application and database servers from AIX 5.x to IBM p7-770, on schedule and with no production impact.
- Designed VMware vCloud, GPFS/GFS and HACMP clustering and automated MQ upgrades for 24/7 retail systems running SAS, Oracle, DB2, WebLogic and WebSphere.

Talent Portal (Contractor) · Montgomery Advertiser · Wichita Eagle (Contractor)

TECHNOLOGY

- **AI & Automation:** AI Agents, MCP Gateways/Servers, LLM-as-a-Judge, AIOps, Terraform, Ansible, Puppet, Jenkins, GitOps
- **Service & Observability:** ServiceNow, Splunk, Datadog, AppDynamics
- **Cloud & Infrastructure:** AWS, Microsoft Azure, VMware, Nutanix, Kubernetes, OpenShift, IBM Mainframe (Z), AIX, RHEL, Windows Server
- **Enterprise Apps & Security:** SAP HANA, Oracle, DB2, WebSphere, WebLogic, MQ, Okta

EDUCATION & RECOGNITION

- Master's Degree, Wichita State University
- Bachelor of Science, Wichita State University
- Product Management Program, MIT Professional Education
- IBM Champion, 2025 and 2026
